Consults - Encounter Notes (continued)

Consults by Olga Solovyova, MD at 6/26/2016 5:21 AM (continued)

Version 2 of 2

Gen: NAD
RLE:
Skin intact
Large popliteal hematoma
Motor: 0/5 eh/fh/gs/ta
No sensation s/s/sp/dp/t
Cool, pale foot
DP/PT not dopplerable
Weak popliteal signal on doppler
Compartments full but compressible
LLE:
Skin intact
TTP along distal tibia
Motor: eh/fh/gs/ta intact
SILT s/s/sp/dp/t
Toes wwp, bcr
Secondary survey negative for additional injuries.

Imaging:

XR right knee: widened proximal tib-fib joint
CT RLE: vascular occlusion at the level of the popliteal fossa
CT LLE: no fx/dislocation

Assessment & Plan:

male with RLE vascular injury, likely s/p knee dislocation and spontaneous reduction
- OR for vascular repair, ex fix RLE, and possible RLE fasciotomies

D/w chief and attending

Patient ID:

Mario Umana

Admit date: 6/26/2016

Discharge date: 7/22/2016

Admitting Physician: Devendra Brahmhatt, MD

Discharge Physician: Dessislava Stefanova, MD

Admission Diagnoses: Trauma [T14.90]

Trauma [T14.90]

Discharge Diagnoses: Trauma [T14.90]

Admission Condition: fair

Discharged Condition: good

Indication for Admission/Presentation: [REDACTED] PMH BIBEMS after being hit by a car. [REDACTED] was walking on the sidewalk when a car jumped the curb and struck him on the R side. +etoh, -HS, ?LOC (patient doesn't remember after he was hit). GCS 14 (-1 for eyes). Primary survey intact. Complaining of RLE pain. R lower leg pale and no palpable DP. Also complaining of L ankle pain.

Procedure Done: 6/26: External fixation of RLE, Rt popliteal artery bypass, 3 compartment fasciotomy,
6/29: Irrigation and Debridement of Right leg wound.
7/1: Right above the knee amputation

Hospital Course: Mario Umana is a [REDACTED] w/ no PMH was brought to the ED secondary to being hit by a car. On initial CTA of RLE, showed abrupt arterial occlusion in popliteal fossa. He was subsequently brought to the OR on 6/26 AM for external fixation of RLE, right popliteal artery bypass and compartment fasciotomy. Patient tolerated procedure well with no anesthetic complications. After the procedure, patient's right foot was cold to touch with numbness and no sensation from below right knee to toes. Doppler studies were absent on doppler. He was able to wiggle his toes. On 6/29, irrigation and debridement of right leg wounds and change of wound vac. Significant muscle loss were found. Right above the knee amputation was recommended for significant muscle necrosis and dysvascular limb. Patient underwent an above the knee amputation on 7/1 and tolerated the procedure well. Was subsequently transferred to SICU. Patient was distraught status post amputation. Patient was then discharged to 3North on POD#8 after no acute events happened overnight.

[REDACTED] Had first BM on POD#9, tolerated regular diet well with no N/V, and voided well with no complaints. Pain was also well controlled and only aggravated by movement out of bed. PT and OT met with patient and recommended for acute rehab services. Patient continued to have BM, passing gas, continued working with PT/OT, and WBC

Summary of Investigation:							
<p>1. On June 26, 2016, at approximately 1000 hours, I was present at Jamaica Hospital to interview complainant Mayren Escobar in person in regards to robbery case# 2016-190. Mayren did state that she was with her husband (Wilber Mata) at the Yosmira Lounge located at 131-09 Jamaica Avenue having drinks until about approximately 0400 hours. Mayren then stated as they were exiting the location she did see her husbands brother involved in a fight. Mayren then stated that she and her husband then tried to separate her brother in law from unknown males that were assaulting him. Mayren then stated that she did walk across Jamaica Avenue to get to her vehicle and was hit by a car. Mayren further stated that she only saw the head lights and then struck by the vehicle knocking her unconscious. Mayren then stated that she regained consciousness at the Jamaica Hospital emergency room. Mayren then stated she did not have any broken bones or needed stitches but did suffer a concussion.</p>

Details							
Summary of Investigation: 1. On June 28, 2016, at approximately 1430 hours, I did interview witness Mata, Wilber in person at the 102 PCT Detective Squad in regards to robbery case# 2016-190. Mata did state that he was with his wife Mayren Escobar having drinks at the Yasmira Lounge located at 131-09 Jamaica Avenue until approximately 0400 hours. Mata did state that when he was exiting the location he did see his brother (Umona, Mario) being assaulted by four unknown males. Mata then stated that he ran over to help his brother when he was punched numerous times by all unknown perps. Mata then stated that unknown perps did knock him to the ground and fled in unknown direction. Mata then stated that as he was getting up from the ground he did see a white vehicle driving on Jamaica Avenue hit both his brother and his wife and continue east bound on Jamaica Avenue. The vehicle then did make a U-Turn on Jamaica Avenue and Mata did try to run after it. Mata further stated that both his wife and brother were laying on the street unconscious. Mata then stated that the police did arrive and he informed them of the vehicle and the direction that it fled. Mata then stated that he did go with his wife back to Jamaica Hospital.
